

Early Childhood Care Education

B.Sc.(Home Science)-Part-III
Paper- Early childhood care education
Unit-I Chapter-1 & 2

Dr. Arti Diwan
Asstt. Professor- Home Science
I.G. Govt Arts and Commerce P.G. College
Vaishali Nagar, Bhilai.

Contents

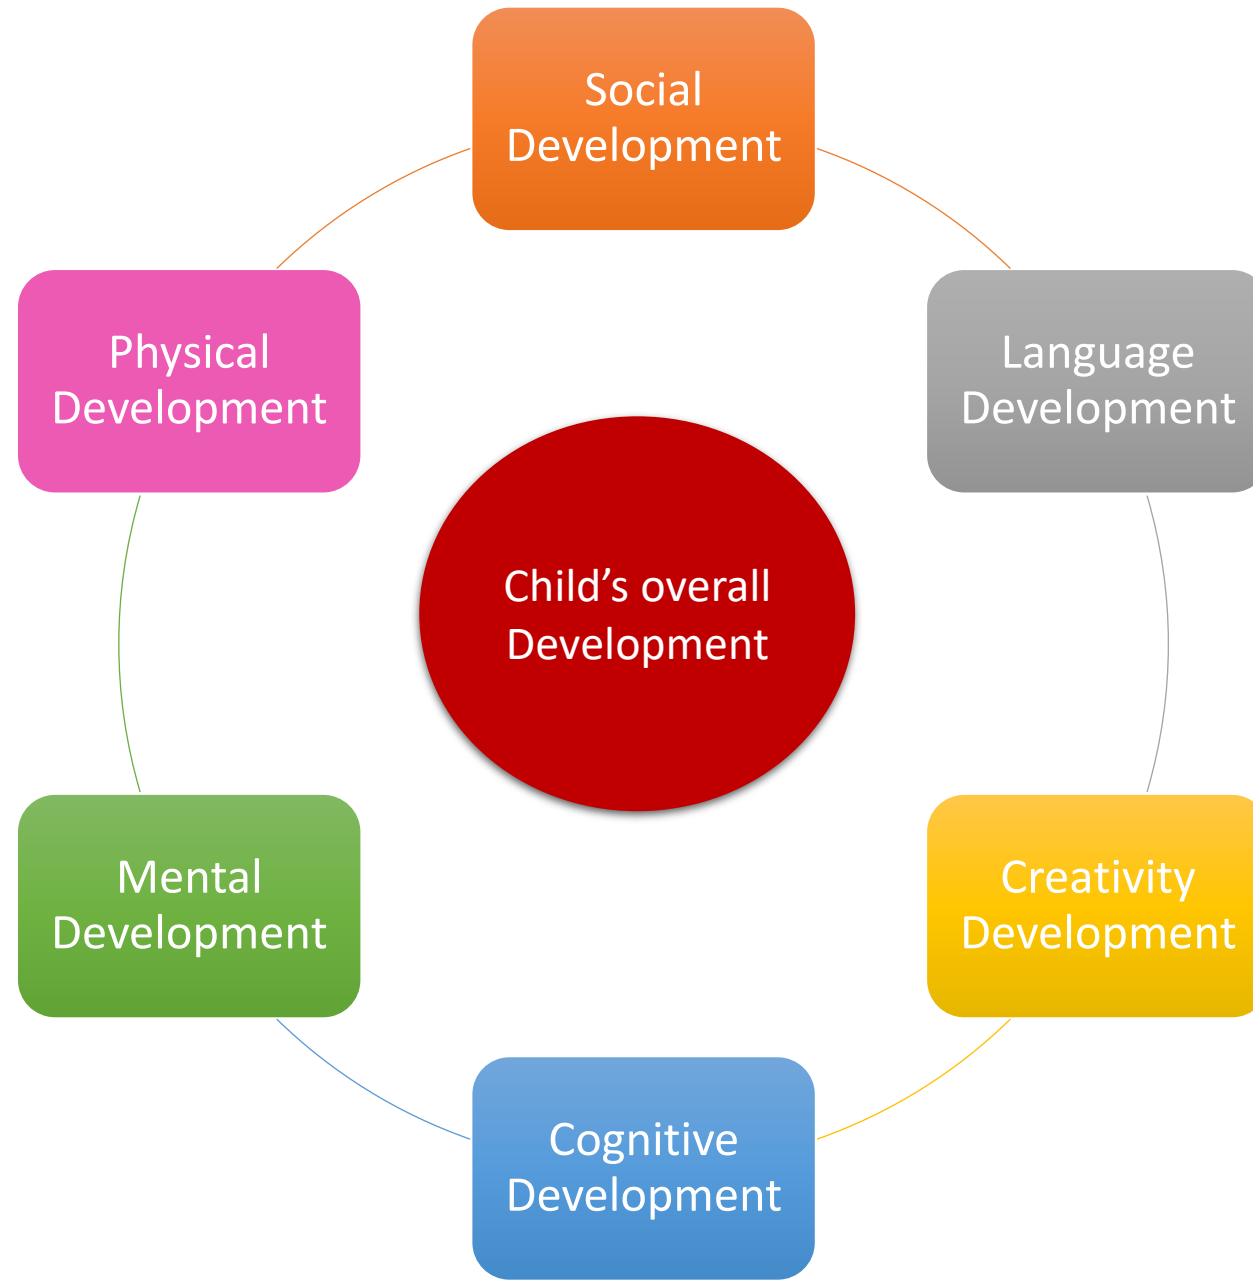

1. Significance of early childhood years in individual development.
2. Meaning and need for intervention programmes for better growth and development.

Introduction

Early childhood defined as the period from 3 to 6 years old is a time of remarkable growth with brain development at the peak. During this stage, children are highly influenced by the environment and the people that surround them.

Early childhood Care and Education is more than preparation for primary school. It aims at the holistic development of a child's social, emotional, cognitive and physical needs in order to build a solid and broad foundation for life long learning and wellbeing.

Meaning and need for intervention programmes for better growth and development

7. Social Skills

8. Scientific Thinking

A teacher with dark hair in a ponytail, wearing a light blue shirt, is pointing with her right hand towards a small globe on a wooden table. Several young children are gathered around the table, looking at the globe with interest. One girl in a pink shirt is in the foreground, looking towards the globe. Another girl in a red shirt is behind her, also looking. A boy in a dark shirt is to the left, looking at the globe. The table has some papers and a set of colored pencils. The background is a classroom with windows and a wooden wall.
